Hi

The general contractor still has to confirm testing results with BOE. This deals with meeting City Standards to the testing method. The contractor has been working to resolve this, and I will remind them once again.

I will work on getting more push on this.

Thanks

Good Afternoon Arturo,

Can you please dispatch a construction Crew to 5600 North Figueroa Street to repair the Wooden cover (Picture attached).

Thank you,

Ricardo Flores

I would like to know when are you guys going to finish this project. I dont think you guys understand how dangerous it is. I seen two kids fall because its not sturdy. Ive seen an old lady fall because the wood bends like a trampoline. Something has to be done change the wood or put up some caution tape. This project is taking way to long. It is located in front of the movie theater on ave 56 and fig.
